SEMINAR
Countdown to November 28:
Preparing for the New Nursing Home Survey Process
October 4, 2017
Location: Sysco Food Services, Wilsonville, OR

Overview
As if the substantial revision of the federal rules governing nursing homes isn’t enough, CMS (the Centers for Medicare and Medicaid Services) is also revising the long-term care survey process. Surveyors are to begin using the new process the same date that Phase 2 of the new nursing home Requirements of Participation (RoPs) are being implemented: November 28, 2017.

The new survey process combines elements of the traditional survey and the Quality Indicator Survey (QIS). The process will include observations, interviews, investigations and facility tasks, and will use some QIS critical element pathways as well as new ones.

In this workshop, you’ll have the opportunity to gather with your peers from other nursing homes to take an in-depth look at the new survey process, how it differs from the current process, and how you can best prepare for the revamped survey in the context of the revised nursing home rules.

Objectives
- Examine the elements of the new nursing home survey process to be implemented November 28, 2017.
- Identify how the process differs from the QIS process currently being used in Oregon.
- Consider how to best prepare for the new survey in light of the Phase 1 and Phase 2 rules of the RoPs.
- Connect and share with your nursing home peers your issues and challenges related to implementing Phase 2 of the RoPs.

Faculty
Demi Haffenreffer, RN, MBA, President, Haffenreffer & Associates, has been in the long-term care profession since 1973. Her thorough knowledge of the regulations combined with her extensive hands-on experience provide for practical, everyday solutions to the challenges facing long-term care providers.

Who should attend
Administrators, DNSs, RCMs, any staff member who plays a role preparing for or participating in the survey process.

Fees
LeadingAge Oregon member: $99
Non-member: $109
Make sure your staff are thoroughly trained in the nursing home assessment tool!

MDS 3.0 Training for Nursing Facility Staff

Next Class: July 14-15, 2016
Class limited to the first 30 registrants
